ABOUT ME

- I am a student still learning and improving my skills everyday and I am looking for that opportunitiy to begin my career as a frontend software developer. I am passionate about continuous improvement and that is why I created some projects that you may check on my personal website, still under construction, at **https://martinmares.tech** I'd be awesome to start a journey together. ;)

SKILLS

- **Web design:**
  HTML,
  CSS,
  Bootstrap.
  Javascript, (Jquery, JSON, Ajax).
  Learning React

- **Other languages :**
  Java,
  C

- **Version control**:
  GitHub

- **Data base:**
  Relational database desing.
  Learning MySQL

- **Agile Metodologies:**
  Scrum (Certified)

EXPERIENCE

Zoek, Web Optimization Service Assistant (Independent contractor)
SEP 2021 - CURRENT

- Search engine optimization assistant for a company based in the USA.
- My responsibilities included addressing customer's concerns in regads to their website optimization process by phone/email, analytics review, SEO and web design upgrade/downgrade.
